WORKING STUDENT QA TESTER (M/F/X)

With over **4.9 million reviews** and **1.4 million salary data points** across 1 million companies, kununu – part of New Work SE has become **Europe's leading employer insights platform.**

Our mission is clear: We strive to bring full transparency to the job market. We believe in **empowering people to choose the right place to work** and that every person should be able to give and get accurate, honest insights into companies and job roles.

It's your task to **add value to our product** and help our users find the best employer. If you want to have an impact in a **data-driven, fast-paced environment with meaningful work,** then this position is for you!

A CHALLENGING TASK

- Our platform kununu.com offers many features to empower users. Before we integrate **new features** to our platform, we have to **test** them. This is where you come in!
- You will be working **closely** together with the **Engineers** of the **team** and **Product Owners** in order to develop a test strategy. The goal is to ensure the best possible product quality.
- You will **run software tests** (mainly front-end testing and cross browser testing) individually and also make sure that no other feature is compromised.
- You work like a **detective** and you will not let go until the last **bug** is **found** and **documented** in **JIRA** and **Google Spread Sheets**. When everything is tested and runs smoothly the feature is ready to go live.
- **In a nutshell:** You will be a **key person** responsible for the **manual testing of software** and **documentation** at a professional level. By doing this, you have contact to almost every single point of application development and presentation. This can help greatly to learn new technologies, different ways of working, and decision making for future careers.

A CONVINCING BACKGROUND

- Ideally, you are in an **undergraduate** or **graduate study program** with a **technical focus.**
- You have a **basic understanding** of **bugs** and **edge cases** as well as an interest in the **field.**
- **First experience** with end-to-end testing of web applications on different devices (desktop and mobile) is a **plus.**
- You are **eager** to **learn** and you **like** to face **new challenges.** You are a **creative mind** who likes to think outside the box and find new solutions.
- **What you do has impact for our users!** Independence and a **high sense** of **responsibility** characterizes you as well as reliability and showing initiative.

- You are a **strong communicator**, **flexible** and a true **team player** who ideally has worked in agile teams before.
- You have a **very good** command of **English**.
- You are immediately available for **25-30 hours** per week.

AN INSPIRING ENVIRONMENT

Here at kununu you can do, what you can do best. And what you really want to do. And what gets you ahead. Not only in your job, but in life.

- We believe that life is too short to spend it in the wrong company. With us, you work directly in the **center of Vienna** in a state of the art, **data & technology driven working environment** with **flexible working hours**.
- **We are hungry to grow:** Challenging tasks within a **highly passionate and international crew**, inspiring interactions with your colleagues as well as **plenty of opportunities to bring in your own ideas** await you.
- **kununu** is not just a great place to work, **it's a mindset**. We give a damn about our employees and offer numerous benefits like **6 weeks of vacation per year**, a highly **modern office** setup, **home office** opportunities, daily **restaurant vouchers**, organic **fruits**, free **coffee & drinks** - just to name a few. Want to bring your **dog** to the office? No problem at kununu.
- We are obliged to **state the minimum salary** for this position due to legal requirements in Austria. Our salary for this position is starting at **22,400 €**.
